

VIDEO, AUDIO & TELEMETRY (VAT) PLUG AND PLAY SYSTEM

REAL TIME (NO LATENCY) LOW COST EASY INSTALL

The VAT Plug & Play unit has been designed to streamline the installation of microwave video transmission and digital telemetry systems. These units will make installation of wireless CCTV simple and easy.

For bigger installations, our 16 channel system will offer a more flexible solution because there is a number of readily available channels. All channels will transmit real time which means **zero latency**.

Easy and quick to install, the VAT is pre-configured to enable instant transmission. Lightweight and compact, the unit can be used with any third party camera or can be supplied with vandal resistant, PTZ dome at 22 x optical - day/night camera.

The unit has a mains or battery power supply.

Please contact us with your individual requirements and we would be happy to quote.

KEY FEATURES:

Video: 5.8GHz with 16 selectable channels

No latency

Telemetry: 868 MHz / 869 MHz
